SPECIFICATIONS

This equipment is considered as part of a personal fall arrest system (PFAS) with a maximum working capacity of 164 Kg (360 lb). It is only to be used in conjunction with a personal fall arrest system that limits the maximum arrest force (MAF).

**Working load (mass):**

- In position 1, 2 or 3: 164 kg (360 lb)
- Max tested capacity with lifeline winch: in position 1 or 2: 16,014 N (3,600 lbf)
- Max working load of material handling in position 3: 8,007 N (1,800 lbf)
- Max tested capacity of anchor point: 22,241 N (5,000 lbf)

**Machines and Construction**

- Hardware: Zinc plated steel and Stainless Steel
- Anchorage hooks: 304 Stainless Steel
- Davit-Arm, Mast and H Base: Aluminum 6061-T6
- Pulley: Black Acetal
- Finish: Yellow security powder paint with metal protection base
- Welding certification: CSA W47.2M CSA W47.1

**Restrictions**

This product is to be used only with products approved by Innova Public Utility Products Inc.

**IMPORTANT:**

- The positioning pins must always be in place when manoeuvring personnel.
- Otherwise, serious injuries may occur.
- If the occurrence of a fall or the safety of the equipment is in doubt, equipment must be immediately removed from service and inspected by qualified personnel before reuse.

- This equipment must always be operated in a level position.
